### **DETAILED ACTION**

Claims 36-67 are pending in the instant application.

#### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 16, 2009 has been entered.

As the most recent amendment has been made by an attorney that does not currently have a power of attorney recognized by the Office, the Examiner was not able to contact the Applicant in order to attempt to place the instant application in condition for allowance.

#### ***Previous Claim Rejections - 35 USC § 103***

Claims 1, 4, and 6-33 were previously rejected under 35 U.S.C. 103(a) as being unpatentable over Nitz et al. (WO/99/38508 A1) in view of DeLuca et al. (*Pharma. Dosage Forms Vol 1: Parenteral Medications*, 1992, 173-175).

The Applicant has deleted the obvious subject matter, and the rejection is withdrawn.

Claims 34-35 were previously rejected under 35 U.S.C. 103(a) as being unpatentable over Nitz et al. (WO/99/38508 A1).

The Applicant has deleted the obvious subject matter, and the rejection is withdrawn.

***Claim Objections***

Claim 67 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 66. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 67 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 67 contains definitions of substituents Rb, Rc, Rd, and P, but there is no

link to the structural formula

. Therefore, the metes and

bounds of the claim would not be apparent to the person of skill in the art since it is not known where Rb, Rc, Rd, and P are attached to the base structural formula.

***Conclusion***

Claim 67 is rejected. Claim 67 is objected to. Claims 36-66 are currently allowable.
